

Sanjana Mehta

Product, Strategy and Design

As a Product Manager **my strengths encompass defining product vision, interfacing with clients, internal executives and my engineering team to bring the product vision to life.** I also partner with my team as a creative, strategic thinker to innovate and execute based on priorities. I believe in a market-creating rather than a market-competing product strategy and am motivated and committed to getting things done. I embrace a leadership style that empowers the team. I think long-term and am future-focused.
